

## SYNCHRONOUS SESSIONS

### Welcome to the OAS/ITEN - ProFuturo Professional Development Courses!

The Innovation Basic and Jump Math courses provide synchronous sessions where you will have access to a dedicated specialized tutor and engage in peer-to-peer collaboration, which are proven to increase engagement and elevate your academic performance and content retention.

We strongly encourage you to **participate in one session per week** of the course you have enrolled. There are several sessions per week for you to choose from (see calendars below). Please take into consideration that you can join any session regardless of which tutor is delivering it. These sessions are held once a week always at the same time (EST – Washington, DC time) and on the same link, depending on the course.
